## PROJECTS

### Amazon Clone Using HTML and CSS, Smart Irrigation SYSTEM, Smart Dustbin Using Arduino

📅 01/2025 - 10/2025    📍 DILSHUKNAGAR

The Amazon Clone is a frontend project using HTML and CSS, replicating Amazon's homepage with a navbar, product sections, banners and a footer.

- It focuses on **responsive design** and visually mimics an e-commerce site without backend functionality.
  - An **Arduino-based system** that **automatically waters plants** by detecting soil moisture, ensuring water conservation and efficient irrigation.
  - An **automated dustbin** using **Arduino** and an **ultrasonic sensor** that **opens its lid automatically** when someone approaches, promoting hygiene.
